2x4 Garbage Bin Assembly Instructions

2x4 Garbage Bin Kit Shipping Contents

Pkg. # 1	Part		Pkg.# 2	Part
Floor	A		Gable	G
Rear	B		Lid	J
Rear	C		Door	H
Plans	E		Door	I
Kit Screws	K			
Door Header	D			
Gable	F			

Step One

Sit the base on a flat level surface.
Attach the floor panel A to each Gable Panel F and G. Screws up from the bottom.
Install the gable ends flush with front allowing a even surface for the doors to close against.

Step Two

Fasten the two rear panels to the base Labeled B and C screw into the floor panel A and each gable end F and G

Step Three

Install the Door Header Panel D
Using a straight edge keep the Header in a straight line with the gable end. The header should sit up tight to the lid allowing the lid to sit flush on all sides.

The Door stop faces down

Step Four

Install the flip top lid, Panel J The rear of the Panel the narrow pivot is installed level and flat. Keep an even reveal on all sides. When the lid is closed it should lay flat without any spaces.

Step Five

Install the door panels H and I As you look at the bin Door I is on the left and door H is on the right. Door H has the closure board.
